WHO WE ARE

COMPANY BACKGROUND

ORBITAL SYSTEMS is the global leader in domestic water savings. In the company's first product, the Shower, the water is purified and recycled by Space Certified Technology, enabling up to 90% savings of water and energy.

USE AS MUCH WATER YOU WANT WITHOUT USING VERY MUCH OF IT

INTRODUCTION

ORBITAL SYSTEMS' re-purification technology turns a few gallons into all the water you want.

26 Gallons

RE-THINKING THE PROBLEM

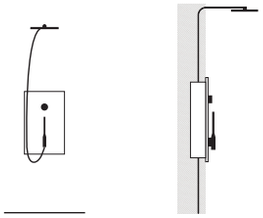
WHAT WE DO

With a little innovative thinking, there is no reason why 2.6 gallons of water can not be repurified and returned in a closed loop.

OAS INDO

WALL INTEGRATED MODEL

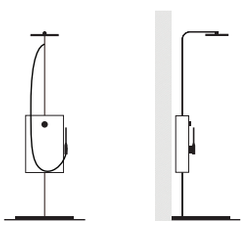
You are now able to integrate the design into your bathroom, allowing for a more personalized and customized look in your facility. Built to be part of any standard design and building process involving professional contractors and architects.



OAS SOLO

STAND ALONE MODEL

Designed to be versatile and flexible, suitable for retrofits and refurbishments across all stages of a retrofit project. The installation process is quick and requires no disruption to existing moisture barriers.



MADE IN SWEDEN

MATCHING YOUR FACILITY

A VERSATILE SOLUTION

Choose a solution that matches your facility whether you are building new, refurbishing or retrofitting your shower area.
